TOGETHER

**Turn your ambition
into reality at
the University of
Westminster, a global
university with London
energy and home to
endless opportunities.**

R,

LET'S
MAKE IT
HAPPEN

WELCOME TO WESTMINSTER

Our University is a place where discoveries are made, barriers are broken, diversity is celebrated and where everyone is welcome.

At Westminster we value all our students. We recognise your individuality and know that you are motivated by making a difference. We give you not just a postgraduate qualification but a well-rounded educational experience where you can feel safe to explore and be yourself.

Established as London's first polytechnic in 1838, Westminster has continued to develop as a university that thrives on delivering transformational education to people from all backgrounds. We foster innovation and creativity, informed by professional practice and inspired by research.

The world has changed through the impact of the pandemic, with the ever-increasing role of technologies, a growing focus on health and wellbeing and more awareness of and commitment to changes to address sustainable development.

Our programmes reflect this new landscape. Through our close links to

business and academic life within London and across the world, we stay relevant and authentic, adding value to professional practice and delivering informed and inspirational programmes.

Our focus on equality, inclusion and wellbeing for all translates across all our work. It feeds the research we produce, the education we deliver and the community in which you learn so that you gain the technical and transferable skills you need to progress and succeed.

You can be confident that Westminster students and graduates will stand out as significant contributors to their communities - through their innovation, enterprise and problem-solving - seeking to make the world a more sustainable, healthier and better place.

Together, let's make it happen.

Dr Peter Bonfield OBE FEng
Vice-Chancellor and President

We are proud of our contribution towards the United Nations 17 Sustainable Development Goals (SDGs)

CULTURE

LONDON, WHERE BRIGHT LIGHTS AND BRIGHTER IDEAS COME TOGETHER

London is a city founded on ambition and one of the best cities in the world to be a student, according to QS Best Student Cities 2022 Ranking.

From business, finance and media to fashion, art and culture, London is where things happen first and where you will find a host of opportunities.

This vibrant, exciting city has been our home since 1838.

EMPLOYMENT

PARKS AND GREEN SPACES

LONDON, HOME TO OPPORTUNITY AND EXPLORATION

You can take full advantage of our locations in the centre of London to explore world-class museums, art galleries, libraries and so much more. We also enrich our courses with events, visits and collaborations with institutions such as Tate Britain and the National Portrait Gallery, giving you a vibrant, inspirational experience – bringing your learning to life.

OVER 170 MUSEUMS
MORE THAN 1,500
ART EXHIBITION SPACES
THE NATIONAL ARCHIVES
THE BRITISH LIBRARY

OUR AND CAMPUSES FACILITIES

**REGENT
CAMPUS**

**HARROW
CAMPUS**

Three of our campuses are in the heart of the city and our Harrow Campus in north-west London is only 25 minutes by Tube from central London.

Our excellent facilities include cafes and coffee shops, gyms, prayer and quiet rooms, and advanced IT services. Most importantly, our innovative learning and lecture spaces include:

- Art, design, photography, film and TV studios
- World-class audio recording studios
- State-of-the-art scientific laboratories
- Dedicated, modern architecture studios
- Flexible, digital environment and hybrid classrooms

We are also one of the few universities in the UK to have an on-campus Bloomberg Financial Markets Suite and the cutting-edge Fabrication Laboratory that offers a range of 3D printers and laser cutters.

A PLACE FOR YOU TO LEARN

Our excellent libraries are home to an extensive collection of books, journals and e-resources. You will also find that they are convenient places to study in Harrow and in the centre of London.

Our specialist team works with academic colleagues to develop physical and online collections to meet your study and research needs, and will support you to develop research, referencing, academic writing and study skills. Support is provided through one-to-one sessions, focused group sessions and dedicated sessions on specific topics based on your needs.

We also offer:

- Extensive written resources and pre-recorded videos to access in your own time
- Extended opening hours and the ability to book study spaces for individual and group work
- IT software and equipment, including Windows laptops and MacBooks, for students' use.

The University has its own archival collections, including the renowned Westminster Menswear Archive, and our team will provide support in using these resources and the many other archives available across the city.

WHERE DO YOU WANT TO BE?

Each of our 4,000 postgraduate students comes to Westminster with their own goal; some are professionals looking to update their skills, while others are excited by the intellectual challenge or want to learn new skills. Whatever their goal, all our students want to make a difference and to progress in their chosen career.

“I had just finished my BSc and applied for HPC (now HCPC) registration as a biomedical scientist. My contract had finished and due to the 2008 banking crisis there weren’t many jobs around. I was looking at all of my options and decided that an MSc would be a useful addition while I tried to figure out my next step.

The first year of my BSc had been at Westminster and I’d found the course well structured and supportive for students working alongside their studies. My personal tutor was incredibly supportive – in fact, she still is 11 years after finishing the course.

My MSc helped to broaden my scientific knowledge and gave me the opportunity to do some research, which was published as part of a larger study. Currently I work at Great Ormond Street Hospital where I am the deputy trust lead healthcare scientist.”

VICTORIA HEATH

Pre-doctoral Clinical Academic Fellow at NIHR,
studied Biomedical Sciences MSc

“I worked my way up at Apple and knew that my passion and strength was music. I wanted to study further and get a more academic framework to my thinking. I found the MA Music Business Management course at the University of Westminster and it felt like a perfect fit – I could study in the evenings and work at Apple in the day, whilst learning more about the business side of the music industry. The course stood out as it was based in London, had lecturers experienced in the industry and boasted a lot of music executives as guest speakers – to be able to connect, learn and network with people working in the field was a big pull for me.

The second highlight was my classmates, who have become close friends in the industry. There’s a camaraderie and familiarity among

us that’s amazing – it’s so great to see so many classmates doing what they love.

I’m currently at YouTube working as a Label Relations Manager. I work with record labels on their priority artists and coordinate with our internal teams to see how YouTube can provide support. Showing YouTube I was hardworking and can manage multiple workloads and priorities proven through doing a Masters and a full-time job, I think, was a real plus in the recruitment stages. Some sectors within music focus less on academia, but on the business side (and particularly within tech), it certainly stands in your favour.”

CORBYN ASBURY

Label Relations Manager at YouTube,
studied Music Business Management MA

PRACTICAL CAREER SUPPORT

We have close links with industry and professional organisations in London, across the UK and all over the world, providing you with limitless opportunities to meet employers and kick-start your career.

“My mentor was a BBC journalist. Thanks to him I learned so much about the media and journalism in the UK”

QUYEN DAO
Data, Culture and Society MA

Over 25 professional bodies offer accreditation, approval or recognition of our courses, or membership for our graduates. These connections help us attract high-quality guest speakers and lecturers, providing you with great opportunities to learn from and connect with potential employers.

Award-winning Careers and Employability Service

With an ever-expanding network of over 3,000 employers, we provide exceptional careers support and guidance for up to three years after graduating.

Our Careers Consultants and Placement teams offer one-to-one appointments to support your career goals, helping you understand your personal skills and experiences and how they relate to the labour market. You can receive interview coaching and get feedback on CVs and applications. And you can access face-to-face and online networking opportunities, careers fairs and industry-specific events.

Future Ready Mentoring

You can apply to be matched with an industry professional for a long or short-term mentoring relationship through our highly acclaimed Future Ready Mentoring programme. Our mentors can help you to accelerate your personal and professional growth by sharing insights, assisting with developing your skill set, exploring different career pathways and supporting you to grow your network.

Work Experience and Placement Team

Depending on your subject, you may have the option to take a placement as part of your course, or as an extracurricular activity. We provide support and a dedicated careers management system – Engage – to help you find work experience, internships and part-time job opportunities.

MAKING IT HAPPEN

Become part of our diverse community,
where you will find all the support you
need to flourish.

“The University of Westminster will get you ready for the ‘real world’. It’s the perfect place to meet a diverse range of people from countries around the world, helping you understand different cultures and enrich your education.

Since the day I landed, London has made me feel comfortable. I love the city’s hustle and bustle, which is very similar to Mumbai where I come from. London has a lot to offer in terms of good tourist attractions, pubs and hidden gems such as Camden and Portobello Market, making you feel that London is full of artistic vibes with a flavour of fashion. From London you can also visit anywhere in England.”

SAHIL DESAI
Marketing Management MA

“Despite studying remotely throughout the pandemic, I felt a sense of connectedness to my course-mates and tutors. The virtual door was always open for questions and conversation. When travel into campus resumed, it was a fun opportunity to immerse myself in London life. And, with my labs being located in central London, it would have been rude not to pay my favourite restaurants a visit during lunch or pop to Oxford Street for window shopping to get my daily steps in!

Studying Health Psychology has given me a deeper sense of empathy for my clients,

and a richer understanding of how theories on motivation can assist public health interventions and how it could influence wider policies as a whole. Many of the lecturers’ passion for their specialist research/teaching area really shines through, making the lectures enjoyable, current and engaging. They endeavour to invite students into the lecture experience and to play an active participating role, rather than to be lectured at, which I really appreciated.”

ANJALEE CHAKRAVARTY-AGBO
Health Psychology MSc

EDUCATION WITH PURPOSE

Our high-quality teaching is informed by our internationally recognised research and underpinned by our close links to industry and professional bodies.

Our goal is to provide a transformative learning experience for students from every background. We want to help you to develop into a resilient and expert graduate who responds flexibly and contributes positively in an unknown global future.

We are committed to teaching in a way that is practical, problem-focused and socially engaged. We aim to provide personalised learning and flexibility for students, and to embed critical thinking, employability, enterprise and digital competence in our courses.

Working in partnership with students, employers and the broader community, we remove barriers to success by championing inclusivity and accessibility.

Find a course structure that works for you:

Full-time study

Courses start in either September or January. You will probably attend the University for lectures or seminars at least two days a week during the teaching year (31 weeks). Each course is assessed differently but is likely to include coursework and an extended project or dissertation.

Part-time study

There are part-time routes in most subjects, which offer daytime or evening study or, in some cases, a mixture of both. A part-time degree normally takes at least two years, attending two sessions each week of the academic year, with a further six to twelve hours each week of personal study. Some employers will enable you to study by day release from work.

Please note part-time study is not available for students requiring a student visa.

With professional experience

Some courses offer the option of an integrated work placement or internship either in the UK or abroad. These full-time degrees are delivered over two years.

Modular scheme

Our Masters degree courses are modular study schemes based on a system of accumulating credits. You can transfer credits you have gained to other courses or institutions. And every course combines core and option modules which, as you complete them, bring you closer to gaining your higher degree.

Intensive block study

A few Masters courses are offered in short, intensive study periods of one to four weeks. They are full-time and may include weekend and weekday study. They are often followed by 12 weeks of personal study. Single postgraduate modules can sometimes be studied in this way.

We also offer LLM, MBA, MFA, MArch, MRes and Apprenticeship degrees. Please refer to our website for full details.

EDUCATING FOR PROFESSIONAL LIFE

The University of Westminster is an accredited Continuing Professional Development (CPD) Centre and offers a range of short courses throughout the year. We have a long history of educating students for professional life. Studying here will enhance your career prospects and your personal and professional development while you work.

Skills and professional development

Taking charge of your development will help you excel in today's complex and continually changing environment. Our short courses include, but are not limited to:

- Evening Language Courses
- Courses and workshops to prepare for the Diploma in Translation qualification
- Introduction to Counselling Skills
- Specialist Biomedical Science courses for healthcare professionals.

Our accredited professional and preparatory courses are designed to help you gain a professional or chartered status. They include, but are not limited to:

- PRINCE2®, AgilePM® and Professional Scrum® Master project management courses
- CILEX law courses.

We also design and deliver customised training programmes for organisations. Visit [westminster.ac.uk/workforce-development](https://www.westminster.ac.uk/workforce-development) for more information.

SUPPORTING YOU TO SUCCEED

We are proud of our diverse student body and the energy and creativity it brings. Whether you are an international student or have not studied for some time, our staff are here to support you to succeed at every step.

CAREERS AND EMPLOYABILITY SUPPORT

The Careers and Employability Service offers help and support for up to three years after graduation. It provides advice on career development and help to find job and volunteering opportunities.

LEARNING SUPPORT

Every student is allocated a personal tutor, who can support any aspect of your studies, with additional support available if you have specific learning needs. A range of practical courses and tutorials on academic study skills are available both online and in person. You can apply to be part of an active mentoring programme.

DISABILITY SUPPORT

The Disability Learning Support Service supports you if you have disabilities, specific learning difficulties or conditions that may affect your studies. Specialist advisers can provide advice on access, technology and support adjustments for coursework, assessments and exams.

WELLBEING AND HEALTH SERVICES

Wellbeing advisers are available to help with removing barriers to positive wellbeing and can assist you in accessing specialist support.

You have access to external NHS support services including General Practitioners (GPs), and mental and sexual health services.

ACCOMMODATION

For help and advice on the different types of accommodation available, visit: westminster.ac.uk/accommodation

“Thank goodness for the support assistant in the research methods labs for taking baby steps with me at the beginning to help build my confidence with my quantitative skills. There was no judgement for what I didn’t know (or couldn’t remember), just support at my pace. I got a distinction for the module in the end!”

ANJALEE CHAKRAVARTY-AGBO
Health Psychology MSc

WESTMINSTER ALUMNI

When you graduate you will be part of the thriving alumni community with members in 180 countries across the world. Westminster Alumni enjoy exclusive discounts on further courses, as well as invitations to networking and social events.

WELCOME TO

We offer a very warm welcome to students from 160 different countries. Wherever you come from, you will find a distinctly British learning experience within a truly international environment.

Support for international students

If you are joining us from overseas, we have plenty of experience in helping and supporting you to make the most of your time with us. You'll find extra dedicated support to help you feel at home, including:

- Information about enrolment and student support services
- Pre-departure webinars and face-to-face briefings in several countries and online advice on immigration and visas
- Support and advice on securing a place in University halls of residence or alternative accommodation in London
- Welcome sessions for international students, which give you the chance to meet and network with other international students as well as our staff
- Student societies dedicated to diverse national groups and interests
- Specialist careers support, including careers fairs, work experience, volunteering and mentoring opportunities.

We also offer a wide range of additional courses to support you before you arrive and during your studies, including training and study skills, academic English, and a range of pre-sessional English courses for both September and January intakes. To find out more, visit:

[westminster.ac.uk/international/english-language-support](https://www.westminster.ac.uk/international/english-language-support)

THE WORLD

Pre-Masters courses

We work in partnership with Kaplan International Pathways to provide preparatory courses for international students who do not meet the entry requirements for a range of our Masters programmes. These courses are designed to meet the needs of international students. They will allow you to build your academic skills and subject knowledge, and raise your English language to the level required for postgraduate study.

Upon successful completion of your course at the required level, you will be guaranteed a place on your chosen postgraduate degree.

You can study the following courses at Kaplan International College London:

- Pre-Masters for Business, Law and Social Sciences
- Pre-Masters for Science and Engineering.

To find out more and apply, visit:

kaplanpathways.com/universities/university-of-westminster

We also work with other academic institutions offering Pre-Masters qualifications. For more information, visit:

westminster.ac.uk/international/university-preparation-courses

We are ranked in the Top 10 in the UK for International Outlook according to the Times Higher Education Young University Rankings 2022

Semester Postgraduate Study Abroad Programme

Join our semester Postgraduate Study Abroad Programme and choose from a range of modules, or combine your study with an internship. You can transfer these credits to your home degree and embed an international experience into your studies. This can enhance your global learning and future employability. For more information on all the opportunities open to you, and to read student reflections on their Study Abroad experience, visit: westminster.ac.uk/study-abroad

RESEARCH WITH IMPACT

Building on our pioneering past, colleagues and students come together in our research and knowledge exchange endeavours to find solutions to make a difference for our communities and for the world.

We engage with government, businesses, the public and local communities, disseminating and applying knowledge through collaborating with partners both nationally and internationally. Our four university-wide research communities focus on building knowledge and sparking change in some of the most important areas of human activity. These communities are:

- Arts, Communication and Culture
- Diversity and Inclusion
- Health Innovation and Wellbeing
- Sustainable Cities and the Urban Environment.

Our innovative research is recognised as world-leading, both inside and outside academia – 72% of our research has been deemed to be world-leading (4*) or internationally excellent (3*) according to the 2021 Research Excellence Framework (REF).

Research impact measures the benefit we deliver to society. Our research delivered high impact nationwide in the following subject areas:

- **Art and Design**
- **Business and Management**
- **Politics and International Studies**

Source: Research Excellence Framework (REF) 2021

THE GRADUATE SCHOOL

As a doctoral student at Westminster, you will belong to an academic school and research group. But you will also be a member of a much wider community of doctoral researchers through our Graduate School – a vibrant, high-quality and inspiring globally engaged research environment in the centre of London.

Developing the next generation

Developing and sustaining research is a key priority for the University, and our Graduate School is vital to this aim. The School is a thriving home for our doctoral researchers and provides a vibrant researcher development programme benchmarked to national and European standards.

Through the Graduate School, you can become highly regarded in your field of expertise, both nationally and internationally, and enhance your future professional life and career development.

We will support your development into a confident, highly skilled and well-rounded professional researcher through:

- A series of tailor-made workshops and specialist skills sessions – the Doctoral Researcher Development Programme
- Developing connections with subject-leading research experts and dedicated professional service support staff.

We have scored highly in the Postgraduate Research Experience Survey 2021 in respect of overall satisfaction with the experience, the induction programme and the level of supervision. These results show our commitment to help you succeed in your doctoral research.

For more information, visit westminster.ac.uk/research-degrees

LET'S MAKE IT HAPPEN

Our students go on to do extraordinary things - thriving in their professional lives and contributing to society nationally and internationally. Whatever your goals and aspirations, we are here to help you make it happen.

“I am a senior account manager for Dewhirst. The MA gave the clarification I needed on which sector to pursue. I always stood out amongst other candidates due to my strong academic background and the investment I made in my education. It also allowed me to articulate myself professionally and offer well-executed strategies which a lot of other colleagues did not have the capacity to do at my level.”

SHABNAM CHOUDHARY

Senior Account Manager for Dewhirst,
studied Fashion Business Management MA

Born in west London, Mo Abudu moved to Nigeria at the age of seven and back to the UK at age 11.

She began her career at The Atlas Recruitment Consultancy Firm in the UK. In 1993 she returned to Nigeria where she was headhunted to ExxonMobil to manage the HR and Administration division.

Recognising the need for talented professionals in Nigeria, she started her own human resources firm - Vic Lawrence & Associates (VLA) in 2002. A serial entrepreneur, she has launched a highly successful media career. She is part of the

Forbes Powerlist 2021 and was named in *Variety* Magazine Top 500 list of the most influential business leaders in the global media industry in 2021. Mo Abudu is the CEO of the EbonyLife Group, which includes EbonyLife Media. She produces for Netflix and has co-production deals with Sony, AMC, BBC Studios, Lionsgate and Starz, amongst others.

Mo Abudu studied for a **Master's degree in Manpower Studies** in 1993 and was awarded an honorary degree of Doctor of Arts by the University of Westminster in 2018 for her services to broadcasting and enterprise in Nigeria.

FIND OUT MORE

Funding your degree

A postgraduate degree is a long-term investment in your future and can make a significant difference to your career prospects and earning potential.

Postgraduates typically earn around 20 per cent more than those with an undergraduate degree. As well as helping you to develop professionally and build a lasting network, a postgraduate degree will challenge you, encourage you to grow as a person and take you to places you had not believed possible.

Student Finance England (SFE) offers Masters loans, which can be used to pay tuition fees or help meet your maintenance or study costs. We also offer a number of scholarships for UK and international students, studying on a full-time or part-time basis.

For more information on fees and funding, visit: westminster.ac.uk/fees-and-funding and westminster.ac.uk/scholarships

Our courses

The following section lists the courses we offer. Most courses are available full-time (FT) and some are available part-time (PT). For the most up-to-date information on the course structure, course modules, fees and entry requirements, visit: westminster.ac.uk/study

If your degree (or equivalent qualification) is from outside the UK and you would like information on our requirements from your country, visit: westminster.ac.uk/international

“This university has always been my dream destination. I always wanted to study here and I feel lucky to be a part of it”

ACCOUNTING AND FINANCE

The global financial services industry is increasingly technology led and is in a period of rapid digitisation. To meet this change, our innovative and challenging courses are developed in close collaboration with employers and professional bodies. Working with industry-leading organisations such as the CFA Institute, the Chartered Institute for Securities & Investment (CISI), and the Association of Chartered Certified Accountants (ACCA) helps us provide the distinctive skill set you need to meet the demands of tomorrow's job market. The university is a CFA University Affiliation Program Partner. Westminster Business School is recognised as a CISI Centre of Excellence.

Our courses are designed to enhance the value of a Masters academic qualification with professional skills. They draw on the teaching excellence and research expertise of our academic and professionally qualified staff. Additionally, we continue to invest in financial technology resources in our purpose-built Financial Markets Suite. It is widely used in leading financial institutions around the world – providing a state-of-the-art teaching and learning experience.

The skills and knowledge gained on our courses will open up a range of opportunities in different accounting and finance careers. These include management and financial accounting and reporting, auditing, stockbroking, private equity, finance and tax consultancy, fintech, and investment and risk management.

Recent graduates have found employment at organisations including Amazon, Deloitte, Citibank, the Financial Conduct Authority, PricewaterhouseCoopers, Santander, Société Générale and the World Economic Forum.

ARCHITECTURE, INTERIORS AND URBAN DESIGN

Westminster is one of the largest providers of architecture, interiors and urban design education in the country. We offer specialist, experimental postgraduate education grounded in continually extending theoretical and technical knowledge. And we provide you with the chance to develop your ideas through creative and reflective approaches to your chosen discipline.

Our 110-metre long, galleried, day-lit architecture studios are situated on the upper levels of the Marylebone Campus, and provide a vibrant and innovative studio culture. And our Westminster Fabrication Laboratory combines the digital with the analogue to create some of the finest facilities of any school of architecture in central London.

Our strong links with leading professionals and future employers mean there are exciting networking opportunities and excellent employment prospects for our students. Recent graduates have found success within interior design, architectural design, the public sector and the construction industries.

ART, DESIGN AND VISUAL CULTURE

Our postgraduate art and design portfolio offers a unique combination of professional practice, creative development, skills enhancement and contextual, specialist and interdisciplinary knowledge.

Our courses have always reflected and influenced the state of the art – right back to 1839. The world's first photography degree was delivered at our predecessor, the Regent Street Polytechnic.

We work with leading professionals and organisations to cultivate new talent and foster original, innovative thinking. You will be exposed to a rich mix of visiting speakers from across the creative sector and be able to draw upon the skills and expertise of lecturers, other students and links to London's vibrant creative community.

Our graduates go on to a wide range of careers as artists, photographers, curators, designers, academics, writers, digital advertising executives, creative technologists, digital content producers and developers, game designers, new media producers and marketers, app developers and entrepreneurs.

BIOLOGICAL AND BIOMEDICAL SCIENCES

At Westminster you will hone your practical and professional skills interacting with our academics who enjoy an international reputation for professional and research activities. With courses informed by our research and in collaboration with national and international institutions, you have the chance to experience the excitement of these fields first-hand.

We are proud of our contribution in biomedical sciences and have an active research culture. Our researchers are finding ways to help tackle cancer, liver disease, obesity, diabetes, and neurodegenerative and inflammatory diseases. Our biotechnology research is internationally admired, aiming to exploit biological resources for the development of bio-products and their use for environmental, medical and chemical/biochemical applications.

Graduates have gone on to a variety of careers including research via a PhD programme or entering research and development roles in research institutes or industry, as well as careers in the commercial field in technical support roles and sales in research and healthcare companies. Those already working in research or healthcare laboratories have gained additional or translational skills, enhancing their current roles.

BUSINESS AND MANAGEMENT

Our graduates develop the relevant skills and mindset to respond proactively, creatively and responsibly to challenges in today's rapidly changing international business environment. Our innovative management programmes cover operational and strategic aspects, combining rigorous academic study with practical, evidence-based skills.

Each programme has been carefully designed to produce competent, creative and enterprising professionals with the expertise and confidence to build rewarding careers, while having a real impact where they work. You might want to develop your entrepreneurial skills, explore the latest project management techniques, analyse the environmental issues facing companies or manage organisational change. Whatever your business interest, we can support you.

Our team combines strong specialist business experience with the academic qualifications to teach all aspects of applied management, leadership and its associated specialist disciplines.

Our business courses will prepare you to become business leaders, entrepreneurs or seek employment in SMEs, blue-chip companies in the public, private or third sector.

For marketing courses see page 52.

We develop graduates with the skills and mindset to respond creatively and responsibly to a changing world

COMPUTER SCIENCE AND ENGINEERING

Our specialist postgraduate courses prepare you for the fast-moving, cutting-edge computer science and engineering industries.

The need for improved cyber security has never been greater as we increasingly rely upon computers for all aspects of our daily life. Our Cyber Security and Forensics course is informed by links to industry and supported by active in-house research. You can choose to specialise in cyber security or digital forensics and gain an understanding of the nature of the security threats that face computer systems, the type of information that is stored on digital devices and how it can be extracted. Graduates find employment as senior information security officers, in related cyber security roles or in more technical roles, investigating threats and safeguarding digital assets.

Our Software Engineering (Conversion) course aims to provide non-computing graduates with the core, leading-edge practical knowledge and skills that a professional software engineer requires to be successful in today's IT industry. This course provides you with essential practical experience of programming and applying software engineering to a number of new and important areas of IT and computing including mobile computing. It also helps you develop a strong grasp of the theory that underpins these practical skills.

For Data Science and Informatics courses see page 44.

Campus for all courses:
Cavendish

Cyber Security and Forensics MSc

Duration: 1 year FT / 2 years PT

Start: September and January

The programme is accredited by BCS, The Chartered Institute for IT, for partially meeting the educational requirement for CITP and CEng.

Software Engineering (Conversion) MSc

Duration: 1 year FT / 2 years PT

Start: September

CONSTRUCTION, SURVEYING AND REAL ESTATE

Our professionally-accredited real estate and construction portfolio provides you with the skills to succeed in a workplace focused on the technological and managerial processes associated with the development, post-construction, appraisal and management of buildings.

We have excellent connections with our accrediting professional bodies and the industry. All our courses are professionally accredited by the Royal Institution of Chartered Surveyors (RICS) and/or Chartered Institute of Building (CIOB). Highly regarded by students and employers both within the UK and internationally, our courses are informed by the latest developments in practice and research.

Our graduates have excellent career prospects. Alumni have gone on to senior roles in a range of real estate and consultancy businesses and financial institutions. Recent graduates have found employment at CBRE, Mace, Barratt Developments, Savills, Carter Jonas and Grainger.

Campus for all courses:

Marylebone

Construction Project Management MSc

CRIMINOLOGY

Our Criminology teaching team is at the cutting edge of developments in critical and international criminology, and provides an inclusive learning environment for students from all backgrounds. You will benefit from our strong links with London-based non-governmental organisations and prisons, providing a unique insight into the field.

Our Criminology course is designed to develop your knowledge and critical understanding of criminology as an interdisciplinary subject that incorporates legal, political, psychological and social scientific approaches to the study of crime, deviance, and criminal and social justice.

It will prepare you for a broad range of national and international career opportunities in the fields of criminal justice, human rights, victim and offender support, research, policing, and the probation and prison services. The academic knowledge and research skills gained by completing the course also put you in a strong position to undertake further research, such as a PhD.

Criminology MA

Duration: 1 year FT / 2 years PT

Start: September

Campus: Regent

We have strong links with a number of London-based NGOs and prisons

DATA SCIENCE AND INFORMATICS

Our courses can transform you into a professional data scientist, architect or analyst who understands business challenges, and has the ability to conceive, develop and manage solutions that today's data-centric businesses need. By examining issues such as security, privacy and ethics in information systems, you will enhance your understanding of society's use of information systems.

The Data Science and Analytics course addresses the need to propel information gathering and exploit potential knowledge hidden in increasing amounts of routinely collected data. You will learn techniques and tools in areas such as machine learning, advanced analytics and statistics.

The Big Data Technologies course covers applications of Big Data and technologies employed to underpin these applications, focusing on database management systems and data warehousing.

All our Masters teaching is informed by links to industry and is supported by research conducted by in-house research teams active in areas such as data science and analytics, health and social care modelling, computational intelligence, parallel computing, distributed and intelligent systems, and semantic computing.

Our courses are accredited by the BCS, The Chartered Institute for IT, for partially meeting the educational requirement for Chartered IT Professional (CITP) and Chartered Engineer (CEng).

Campus for all courses:
Cavendish

Big Data Technologies MSc
Duration: 1 year FT / 2 years PT
Start: September and January

Professional bodies accrediting or recognising our courses include:

ECONOMICS

Studying economics enables you to understand the key global issues of the day. It provides the tools and techniques for individuals, businesses and governments to analyse and interpret the issues and problems they face.

With a strong research profile, we are particularly respected in the areas of applied research in labour and education economics. Other areas of research strength include macroeconomics, financial econometrics, international economics and development economics.

We pride ourselves on inclusive and innovative approaches to student learning and research-informed teaching. You will gain an in-depth knowledge of the latest theories, practices and key concepts in economics, and will develop the practical skills needed by a working economist.

There are growing opportunities for graduates with a practically focused knowledge of economics to develop careers as professional economists, managers, business analysts or consultants in private, public and third sector organisations.

The skills and knowledge gained with us will open up a range of opportunities to build a career in government or consultancies, as economic analysts, regulatory economists and market analysts. Previous graduates have found employment at organisations such as the International Monetary Fund, Rio de Janeiro Mayor's Office, Shelter (UK housing charity) and the UK Government Economic Service, including Ofcom and Ofgem.

Economic Policy and Analysis MSc

Duration: 1 year FT

Start: September

Campus: Marylebone

We have strong links with the Government Economic Service and the Society of Professional Economists

ENGLISH AND CREATIVE WRITING

As a dynamic institution, we offer a thought-provoking and productive environment in which to work and study. Our lively postgraduate and research culture embraces a range of different subject areas, critical approaches and professional practices.

Our diversity is our strength. There is always a stimulating interchange of ideas within and across the different fields, and a wonderful range of expertise available among our staff, comprising well-known academics, writers, curators and artists.

Based in the heart of London, we have strong collaborative relationships with cultural institutions in the UK, such as Tate and the Museum of London, as well as abroad with the Smithsonian Institution, Washington, D.C.

All our MA and PhD programmes are intellectually ambitious – we want to inspire you to develop, whether you are starting, building or changing your career. Internships and work placements are available on all courses, giving you professional experience, enhancing your employability and helping to build your connections. Graduates are well equipped for a variety of roles, including as content writers, editors, journalists, publishing professionals or teachers.

FASHION

Westminster has a world-class reputation for producing highly creative fashion professionals. To maintain this position, we continue to develop innovative courses devoted to training the next generation of creative industry leaders, entrepreneurs and designers, while simultaneously cultivating their critical understanding of the fields in which they work.

A unique draw is the Westminster Menswear Archive, which consists of over 1,500 garments from world-renowned menswear designers like Alexander McQueen, Massimo Osti, Craig Green, Stone Island, Carol Christian Poell, Jean Paul Gaultier, Kim Jones, Maison Margiela and Vexed Generation. This exceptional resource allows students, researchers and industry professionals to study examples of menswear design covering military uniforms, industrial garments, and the designer outcomes from a technical and functional point of view.

Our alumni include London Fashion Week designers Roberta Einer, Claire Barrow, Liam Hodges and Ashley Williams; Stuart Vevers, Creative Director of Coach; and former President and Chief Creative Officer of Burberry, Christopher Bailey.

FILM AND TELEVISION

Part of our dedicated Art, Design and Media portfolio, the Film, Television and Moving Image course offers a unique combination of theoretical and creative insights underpinned by contextual, specialist and interdisciplinary knowledge. Taught by leading academics, you will develop key skills for communicating about and with moving images across a range of contexts and platforms.

The course offers a broad-based learning experience. You can choose to follow an entirely theory-based pathway or combined theory-practice experience by choosing one of our pathways: moving image curation or screenwriting.

The design and delivery of our modules draw on the expertise of our Centre for Research and Education in Arts and Media (CREAM), whose members include internationally renowned film and television scholars, moving image artists and curators. The University of Westminster was ranked 5th in Art and design: history, practice and theory. (Source: Times Higher Education – REF 2021 subject rankings analysis).

Our graduates go on to work in small- and large-scale film and television companies as content producers, distributors and exhibitors. Others have secured positions in magazines and journals, academia and the international culture sectors.

Film, Television and Moving Image MA

Duration: 1 year FT / 2 years PT

Start: September

Campus: Harrow

The historic Regent Street Cinema showed the first ever moving film to a UK audience in 1896

LANGUAGES

In an increasingly global world, our rich portfolio of postgraduate courses seeks to meet the demand for interpersonal and intercultural communication across different languages. Through applied and professional languages, our focus is on languages being both explored and employed.

Our postgraduate courses are delivered by highly skilled professionals. Their practice-led approach is complemented by theory-informed lectures and seminars, taught by academics who are active researchers in the fields of translation studies, linguistics, intercultural communication and language pedagogy.

Our Specialised Translation and Translation and Interpreting courses focus on professional skills, leading directly into careers in the translation and interpreting industry.

The Teaching English to Speakers of Other Languages (TESOL) course provides advanced training in TESOL, with the option to additionally enrol at a CELTA course near the university. The International Liaison and Communication course focuses on liaison, negotiation and intercultural communication.

“I dreamt of becoming a freelance translator or interpreter but through this course, I discovered that I was well equipped for other roles too, like project management”

LUCIO BAGNULO
Translation and Interpreting MA, now Head of Translation & Language Strategy at Amnesty International, Madrid

Campus for all courses: Regent

International Liaison and Communication MA

Duration: 1 year FT / 2 years PT
Start: September and January
The University of Westminster is a Higher Education Language partner of the Chartered Institute of Linguists.

LAW

Our Law School offers a broad and innovative range of postgraduate courses, orientated around real-world legal practice. Many of our courses benefit from substantial input from industry experts and our leading researchers; our research strengths include business, finance, international, human rights and entertainment law.

Our academic staff are not only active researchers, passionate about their subject; they are also recognised experts, called upon to advise government bodies and courts on their specialist areas. You will be encouraged to become involved in our research activity as part of our vibrant postgraduate community.

Class sizes are kept relatively small to ensure that you have a first-class learning experience. The wide range of option modules offered on our courses allow you to tailor the course to reflect your interests and aspirations. You will also have the opportunity to participate in the student-led (pro bono) Legal Advice Clinic, and a variety of career and subject-specialist events throughout the year.

Graduates have gone on to have successful careers as solicitors, barristers, family law mediators, and banking and finance lawyers for a variety of organisations.

Campus for all courses: *Regent (Little Titchfield Street Building)*

Legal Practice LLM / PGDip

Duration: 1 year FT / 2 years PT
Start: September

The LLM incorporates the Legal Practice Course and is accredited by the SRA. Students may also study for the Postgraduate Diploma which includes only the necessary LPC modules. The LPC remains a valid qualification route after SQE.

Professional Legal Practice LLM / PGDip

Duration: 1 year FT / 2 years PT
Start: September

This conversion course is designed for non-law graduates.

MARKETING

Businesses need people who can design and manage innovative and disruptive marketing strategies. Our exciting and contemporary courses will prepare you for success in the marketing world, with the option to focus on digital marketing using our specialist facilities.

You might be looking to change career or want to specialise in the fast-changing areas of marketing and marketing communications. Whatever your interest, our programmes combine theory with practice in developing the attributes and specialist skills you need to confidently develop your career and respond to the changing business environment. Optional work-based learning modules are available on some programmes.

We have strong links with the Chartered Institute of Marketing (CIM), Institute of Data and Marketing (IDM) and the Institute of Practitioners in Advertising (IPA). This is reflected in the high level of guest speakers from industry who regularly contribute to our courses. Our dedicated, multicultural staff bring academic and real-world practitioner expertise to the learning experience and take a proactive approach to inclusivity, diversity and equality.

Our courses will prepare you for a wide variety of roles in business, such as account executive, brand manager, digital marketing executive, founder and CEO, and sales and marketing manager. Recent graduates have found employment in organisations including Adidas, Diageo, IMG Media, M&C Saatchi, McLaren Automotive, MediaCom and Unilever.

Campus for all courses:

MEDIA AND COMMUNICATION

Our courses lead the way in establishing new avenues of practice and interdisciplinary thought. With teaching by ground breaking researchers and industry professionals, we will foster your capacity to develop creative media practices while deepening your understanding of the underpinning theory.

We will help you explore media and communication in the context of the individual, organisations and society. Taking an interdisciplinary approach, our courses tackle diverse issues ranging from communication policy, global media, development, social media and social change, right through to big data and applications of AI.

Many teaching staff are internationally renowned researchers and members of the University's Communication and Media Research Institute (CAMRI). CAMRI is one of the world's foremost research centres for media and communication studies.

Our graduates go on to succeed in a wide range of careers as journalists, media and digital media practitioners, campaign communicators, editors, academics and entrepreneurs.

MUSIC

Our Audio Production and Music Business Management courses are long established, internationally recognised and world leaders in their respective fields. We continue to develop generations of creative, responsive and critically agile music, audio and media professionals through our progressive approach to delivering these specialist subjects.

We are proud of the success of our graduates. The Audio Production course has produced Bafta and Grammy Award winners, creative executives, educators, music and audio-visual producers, recording artists, and interactive and film sound designers. Graduates from this course work at the high end of the creative industry, at the BBC, Pinewood, Sony EA, Yamaha, Berklee, Disney, Paramount and Apple. Our Music Business Management graduates can be found working around the world at the cutting edge of new music enterprises such as iTunes, Spotify, Believe Digital, Shazam, Ticketmaster, Live Nation, Kobalt Music, and in the global entertainment powerhouses of Universal Music Group, Sony Music Entertainment and Warner Music Group.

The new Live Music Management course is offered for those focused upon the live music and events industries. It will provide you with all the tools you need to navigate this fast-changing and challenging environment.

NUTRITION AND PUBLIC HEALTH

Our courses address nutritional and wellbeing issues across a wide range of people. This includes people with health issues relating to obesity and diet-related diseases, those in countries with issues relating to malnutrition and micronutrient deficiencies, and elite athletes requiring nutritional advice to optimise performance.

You will explore the evidence for the relationship between diet, physical activity and health, and the role that interventions can have in promoting health and treating disease. As a result, you will gain the specialist knowledge and practical skills you need to meet your future career challenges.

In the field of public health and wellbeing, we have an international reputation for innovative courses with a relevant and authentic response to the changing external context that we operate in. Our new Integrative Health and Wellbeing MSc considers the changing health paradigm, both globally and in the UK, with a focus on individual and community wellbeing. Excitingly, this course is also being offered as a two-year route, one year of which is a work placement, enabling you to gain valuable experience in a health setting. Our new Global Public Health with Data Science MSc brings together these key areas to support decision making, advance evidence-based policies and drive strategies in combating diseases by analysing data on omics, health, lifestyle and the environment.

Graduates in this field can expect to gain employment as nutrition advisers, dieticians, sports nutritionists, teachers or researchers.

PSYCHOLOGY

The University of Westminster has a strong reputation for postgraduate teaching in psychology. We offer exciting and distinctive courses in some of the most interesting areas of the subject. Our supportive, interactive learning environment equips you with theory and insights, as well as skills that can be applied in a professional setting.

Each course is developed and delivered by a team of enthusiastic, supportive psychologists who are all specialists in their fields. We believe strongly in maintaining close links between our teaching and research activities. You will be taught by active researchers, passionate about sharing their enthusiasm for their subject. Our vibrant research culture is distinctive for its openness, collaboration and interdisciplinary approach. We promote the interrelationship of research, enterprise, knowledge transfer and teaching activity.

Our Health Psychology MSc graduates have secured stage 2 training places to become Chartered Health Psychologists, while our Psychology MSc graduates have secured places on professional training courses that require Graduate Basis for Chartered Membership of the British Psychological Society.

Graduates from our psychology courses are well-equipped for a variety of related roles, including health consultants, behavioural insights advisors, business and organisational psychologists, public health specialists and psychological wellbeing practitioners.

TOURISM AND EVENTS MANAGEMENT

With over 20 years of excellence in tourism and events teaching, we are evolving and enhancing our courses to recognise the important changes taking place in these creative and exciting industries, and the challenges they are facing.

The tourism industry has in recent years been one of the largest employers globally, and the events industry has seen significant growth in employment options over the past decade. However, the sector has been heavily impacted by recent world events.

While it may be uncertain what the near future holds for the sector and its recovery, as an industry deeply entwined with place, events and tourism are likely to play an increasingly important role in drawing visitors back to our cities.

We remain a leader in the delivery of quality tourism and event management courses. Our experienced academics and industry practitioners will help you explore the challenges and opportunities recent events have brought to the sector. And by studying in the heart of world events and one of the world's leading tourist destinations, you will develop the skills you need to manage tourism or staged events in other host destinations.

ESSENTIAL INFORMATION

APPLYING TO STUDY AT WESTMINSTER

Taught Masters

The University of Westminster accepts applications online. To apply, please visit [westminster.ac.uk/postgraduate-courses](https://www.westminster.ac.uk/postgraduate-courses), select the course that you wish to apply for and click the 'Apply' button, where you will be able to submit your application directly to us.

Research degrees

Separate application and admissions procedures apply for MPhil/PhD research degrees. For more information on our research degrees, please visit [westminster.ac.uk/research-degrees](https://www.westminster.ac.uk/research-degrees)

Most of our postgraduate courses starting in September and January have a deadline for applications. We advise you to apply as soon as you can as there is a high demand for places for some courses. To guarantee you have adequate time to complete the process, we recommend you apply early if you need to apply for a visa to study in the UK, or if your course requires a portfolio or essay component or interview, as this selection process can take longer.

If you are applying for a scholarship, you should also ensure that your application is submitted as early as possible. If you would like to apply for a scholarship on a PhD course, you can find information at [westminster.ac.uk/graduate-school](https://www.westminster.ac.uk/graduate-school)

Details on specific application deadlines are available on our website.

If you require additional guidance, you can contact our Course Enquiries Team:

T: +44 (0)20 7911 5000 ext 65511

E: course-enquiries@westminster.ac.uk

Entry requirements

Specific entry requirements for courses are given on each course page of our website.

Please visit individual course pages for more details and specific language requirements:
[westminster.ac.uk/english-language-requirements](https://www.westminster.ac.uk/english-language-requirements)

If your degree (or equivalent qualification) is from outside the UK, please visit [westminster.ac.uk/international](https://www.westminster.ac.uk/international) for information on our requirements from your country.

Gaining credit for what you have learnt

Your previous study or experience – whether through paid work or in a voluntary capacity – may mean you can gain exemption from some modules. Recognition of Prior Certificated Learning (RPCL) can be gained based on previous study that has led to a formal certificated qualification and this may include work-based experience (CPD).

Recognition of Prior Experiential Learning (RPEL) recognises knowledge or skills acquired through life or work experience, which have not been formally recognised by an academic or professional certification.

You can make a claim if you think you may be eligible by visiting [westminster.ac.uk/rpcl](https://www.westminster.ac.uk/rpcl)

The process is rigorous and credits will only be awarded for learning that is current and that relates to the aims and content of your intended course.

ENGLISH LANGUAGE DEVELOPMENT

We offer a number of pre-sessional English and in-sessional academic English programmes.

Pre-sessional English

If you are an international student, you can register on one of our pre-sessional English language courses. These will help you develop the language and study skills you need for academic success on a postgraduate course.

Our pre-sessional English courses will enable you to develop the language and study skills necessary to meet the demands of your academic course in an independent and responsible manner. You will also experience student life through our social and welcome programmes. Our aim is to provide you with a solid foundation for when you start your postgraduate course, and to give you the skills, knowledge and experience to make the most of your time at university. The course materials and assessments will also have a disciplinary focus, as a further means of preparing you for your future degree. You will be assessed by a combination of coursework and examinations.

As a pre-sessional student, you will also be expected to do homework, which will lead to formal assessments at the end of the course. In addition, you will have access to our extensive facilities and virtual services, including libraries.

You can find more information at westminster.ac.uk/pre-sessional

Academic English

Our academic English modules have been designed to allow you to consolidate, extend and develop your proficiency in academic English. During orientation week, members of the academic English team will give a short presentation to explain the importance of academic English and the rationale for the modules we offer.

Enrolment for academic English will take place during orientation week and learning will begin in week one. During enrolment we can determine whether an academic English module is appropriate for you.

You can find more information at westminster.ac.uk/academic-english

ACCOMMODATION

Student accommodation

After choosing your course, one of your biggest decisions will be where to live. We aim to make that choice as easy as possible. Whether you decide to live in our halls of residence or in private housing, we can help you find the right accommodation.

For more information, visit westminster.ac.uk/accommodation

Halls of residence

Full-time postgraduate students can apply to live at our central London halls or Harrow Hall. The majority of rooms available are single study bedrooms with shared kitchens. These halls are easily reached if studying in London with a maximum of five Tube stops from any one of our campuses. The convenient locations are great for exploring London, with prices inclusive of all utilities.

Private accommodation

You might prefer to live in private accommodation. There is a supply of rented housing in central London at a wide range of prices. The rent will depend on where you live and the type of accommodation. For example, some students choose to take a room in a shared flat or house. Please remember to take into account the cost of commuting as you consider where to live. We offer students comprehensive advice on finding suitable private accommodation.

Find information on housing and tips on successful accommodation hunting at westminster.ac.uk/accommodation

FEES

To find the current fee level for your course, visit westminster.ac.uk/fees-and-funding

NOTES FOR APPLICANTS

Our advertised course offering is correct as described at the time of going to press. Please check our website for the most up-to-date list of available courses. Changes to the advertised course information may be made to make sure our courses are kept up to date. Should any major change be necessary, applicants will be notified as soon as possible. Some optional modules might not run if a minimum number of students is not reached. There is no guarantee that courses that are undergoing validation will be approved. For more information, visit westminster.ac.uk/terms-and-conditions

Some modules, internships or work placements may also be impacted by COVID-19 restrictions and/or government regulations.
