Valid for cohorts	From 2024/5

Admissions requirements

There are standard minimum entry requirements for all undergraduate courses. Students are advised to check the standard requirements for the most up-to-date information. For most courses a decision will be made on the basis of your application form alone. However, for some courses the selection process may include an interview to demonstrate your strengths in addition to any formal entry requirements. More information can be found here: <https://www.westminster.ac.uk/study/undergraduate/how-to-apply>

Recognition of Prior Learning

Applicants with prior certificated or experiential learning at the same level of the qualification for which they wish to apply are advised to visit the following page for further information:

<https://www.westminster.ac.uk/current-students/guides-and-policies/student-matters/recognition-of-prior-learning>

Aims of the programme

The BSc Psychology and Criminology Course Team is fully committed to the School of Social Sciences Manifesto on diversification and decolonisation of the curriculum.

Our commitment to diversify and decolonise the curriculum and teaching practices in the School of Social Sciences is aimed at challenging prejudices that exist in all societies, celebrating plurality of identities and perspectives, and empowering our students and colleagues to explore their full potential.

This is being implemented with 2 dedicated course level learning outcomes. At the end of your course, you will be able to:

1. Recognise and reflect upon the ethical and social implications of current and historical psychology and criminology research and knowledge. In turn, appreciate the value of drawing upon diverse approaches and perspectives in achieving goals.
2. Treat all individuals and cultures with respect and acknowledge the harm that results and has resulted from not doing so. Act as a responsible and compassionate member of local and global communities.

The BSc Honours Psychology and Criminology course has been designed to provide you with a broad contemporary education in Psychology and Criminology within a vibrant global learning environment situated in the heart of London. What you study has been designed to meet the requirements for the Graduate Basis for Chartered Membership (GBC) of the British Psychological Society. This aspect of the degree prepares you for postgraduate training on the path to becoming a Chartered Psychologist, should you wish to do so.

The study of both psychology and criminology will equip you to understand human motivation and behaviour and apply that insight to legal and criminal contexts. The first year of study builds your knowledge of a range of core topics central to the study of psychology including cognitive, biological, social and developmental psychology. Conceptual and historical issues in psychology are embedded in core modules in both the first and second year to provide you with a broad appreciation of psychology's place in the natural and social sciences. You will also build a strong foundation in criminology, with a broad introduction to criminology as an inter-disciplinary and critical subject area and you will learn about key concepts and theoretical approaches in relation to the study of crime, victimisation, and responses to crime and deviance. Year two (level 5) builds on the foundations laid in year one (level 4).

Year three (level 6) of the degree course provides you with the opportunity to develop your own interests through an attractive range of option modules that span both psychology and criminology, depending on future career aspirations. We do not assume that all our graduates wish to become Chartered Psychologists.

The BSc in Psychology and Criminology is designed to equip you with knowledge and graduate attributes that are highly sought after by employers such as the Civil Service, Criminal Justice Agencies, Police, Prison and Probation services, and for Teaching and Research. This course is vocationally relevant and includes numerous opportunities to engage with work placement openings within Central London and beyond. Employability and work experience are explicitly embedded within the course including employability activities embedded within individual modules, and with a work experience and volunteering core module at level 5. There is the option to take a year of work experience between years 2 and 3 (levels 5 and 6). Graduates who successfully complete this course are numerate and effective communicators, enterprising in outlook, and are engaged global citizens equipped to help shape a better future for all.

Employment and further study opportunities

University of Westminster graduates will be able to demonstrate the following five Graduate Attributes:

- Critical and creative thinkers
- Literate and effective communicator
- Entrepreneurial
- Global in outlook and engaged in communities
- Social, ethically and environmentally aware

University of Westminster courses capitalise on the benefits that London as a global city and as a major creative, intellectual and technology hub has to offer for the learning environment and experience of our students.

To enhance employability, all students are required to complete 35 hours of vocational experience. This vocational experience is provided in the core level 5 module 'Volunteering and Employability in a Psychological or Criminological Setting'. At the University of Westminster, we pride ourselves on having built up a large and diverse range of exciting work placement and volunteering opportunities to cater for all possible interests of our students. We currently offer placements with the Old Bailey, local Magistrates Courts, Victim Support, the Samaritans, Feltham YOI, Metropolitan Police and Civil Service. We are continually striving to add to our list of potential placements for students to explore. We encourage students to disclose any information related to disability or impairment so that, if necessary, effective adjustments can be put in place to ensure the student can fully participate in the placement learning experience.

Today's organisations need graduates with both good degrees and skills relevant to the workplace, i.e. employability skills. To this end, career development skills are embedded in modules in all levels of your course and opportunities for part-time work, placement and work-related learning activities are widely available to students. Additionally, staff maintain knowledge of labour market trends and employers' requirements, which will continue to inform the service delivered to students. Moreover, staff continue to widen and strengthen University links with employers in all sectors relevant to the curriculum design and encourage their participation in other aspects of the University's career, education and guidance provision. Your British Psychological Society accredited Psychology and Criminology degree provides a broad range of skills and thus, career opportunities are very diverse. For example, subject to achieving a First or Upper Second-class degree, graduates may pursue MSc study and future careers in: forensic psychology, educational psychology, teaching or academic research. A significant proportion of those who study Psychology obtain postgraduate degrees and/or pursue careers in other fields, e.g. human resources, advertising and marketing.

The BSc Psychology and Criminology degree aims to create graduates who are highly sought after in the Civil Service, Criminal Justice Agencies and the Police, through the development of the following set of graduate attributes. Our BSc Psychology and Criminology graduates will be distinctive in being:

- **critical and creative thinkers** - employing evidence-based reasoning, possessing deep and expansive knowledge of core domains of psychology and criminology, and applying multiple diverse perspectives to relevant timely issues, such as equality and inclusivity (L4.1, L4.2, L4.6, L5.1, L5.2, L5.3, L5.6, L5.7, L6.3, L6.5, L6.7, L6.8, L6.10);
- **literate and effective communicators** - reasoning about data, presenting research findings effectively, and able to explain ideas clearly and fluently orally, in writing, and through the creation of artefacts such as posters, forensic reports, or campaign materials (L4.2, L4.3, L4.4, L4.7, L4.8, L5.4, L5.9, L6.3, L6.6);
- **global in outlook and engaged in communities** – respecting diversity, promoting equality, and showing awareness of cross-cultural variation in psychological and criminological constructs (L4.5, L4.9, L5.2, L5.6, L5.7, L6.9);
- **socially, environmentally and ethically aware** – practising psychological and/or criminological research and related work areas in accordance with ethical codes, behaving with integrity, and awareness of the potential application of their knowledge to the promotion of social justice and environmentally sustainable behaviour (L4.9, L5.5, L5.6, L5.7, L6.1, L6.2, L6.4);
- **entrepreneurial** – introducing new ideas to the dissemination and practice of psychological and criminological knowledge using analytical, problem-solving and critical thinking skills (L5.8, L6.2, L6.7, L6.8);
- the possessor of a qualification **recognised by the British Psychological Society** that confers the Graduate Basis for Chartered Membership, the first step to becoming a Chartered Psychologist (all Learning Outcomes).

What will you be expected to achieve?

Learning outcomes are statements on what successful students have achieved as the result of learning. These are threshold statements of achievement the learning outcomes broadly fall into four categories:

- The overall knowledge and understanding you will gain from your course (KU)
- Graduate attributes are characteristics that you will have developed during the duration of your course (GA)
- Professional and personal practice learning outcomes are specific skills that you will be expected to have gained on successful completion of the course (PPP)
- Key transferable skills that you will be expected to have gained on successful completion of the course. (KTS)

Level 4 course learning outcomes: upon completion of Level 4 you will be able to:

- L4.1 Knowledge and understanding of key introductory concepts, theories and historical issues across the breadth of four core areas of psychology: biological, cognitive, developmental and social psychology and core topics in criminology. (KU)
- L4.2 Knowledge and understanding of basic psychological and criminological theories and research methodologies, their strengths and weaknesses, and ethical issues relating to research. (KU)
- L4.3 Proficiency in summarising the findings of empirical criminological and/or psychological research including identification of the theoretical and methodological frameworks used. (PPP)
- L4.4 Ability to communicate ideas and discuss criminological and psychological topics of relevance to current debates clearly and fluently orally, visually and in writing. (KTS)
- L4.5 Recognition of patterns of social diversity and inequality and their effects in relation to crime, victimisation and responses to crime and deviance. (KU)
- L4.6 Ability to gather information on a given topic, with guidance, using a range of resources, and use this information with appropriate regard to the quality of the source, and to principles of information usage including plagiarism and copyright issues. (KTS)
- L4.7 Proficiency in the use of statistical analysis software, and the use of productivity tools for writing and for presenting information visually. (KTS)
- L4.8 Ability to conduct data analysis using basic analytic techniques in criminology and psychology, and to report the results using appropriate conventions of the disciplines. (PPP)
- L4.9 Knowledge of the different sources of information about crime and victimisation, both quantitative and qualitative, and how they are produced – including their location in particular legal, political, social and ideological frameworks – and how they can be interpreted. (KU)

Level 5 course learning outcomes: upon completion of Level 5 you will be able to:

- L5.1 Analyse and evaluate knowledge about key concepts, theories and selected topics drawn from each of the core areas of both psychology and criminology covered at level 4. (KU)
- L5.2 Analyse and evaluate the contribution of both psychology and criminology to contemporary issues including social justice, discrimination and diversity. (KU)
- L5.3 Apply multiple perspectives to psychological and criminological problems and to create connections to aspects of everyday experience. (PPP)
- L5.4 Identify a range of criminological and psychological quantitative and qualitative research strategies and methods, conduct appropriate data analytic techniques, and draw inferences warranted by these analyses. (PPP)
- L5.5 Think and behave ethically, respecting codes of ethical conduct, in the planning and execution of psychological and criminological research. (PPP)
- L5.6 Appraise critically political and social processes of victimisation and criminalisation in light of criminological and psychological theories and evidence. (KU)
- L5.7 Critically examine the values, practices and processes of governance, including human rights and social injustice that underpin the treatment of lawbreakers within criminal justice systems. (KU)
- L5.8 Work collaboratively to a task brief that sets out an aim, without specifying in detail the means of achieving this aim. (KTS)
- L5.9 Communicate ideas around crime, victimisation, responses to crime and deviance and representation of crime clearly and fluently orally, visually and in writing in a range of formats, and study with a high degree of supported independent learning. (KTS)

Additional Year course learning outcomes: upon completion of Additional Year you will be able to:

- IEO.1 Enable personal development by devising a programme of international study that complements the content of the home degree programme and/or develops other interests. (GA PPP KTS)
- IEO.2 Appreciate the challenges and opportunities of studying/ working in an international context. (GA PPP KTS)
- IEO.3 Demonstrate an understanding of, and respect for, the cultural norms and differences of the host country at a societal level as part of an inclusive, global outlook (GA PPP KTS)
- PPO.1 Reflect on your knowledge of the career opportunities available to social sciences graduates in the job market and your personal aptitude for those opportunities. (GA PPP KTS)
- PPO.2 Demonstrate the acquisition of a range of professional, practical and key-transferrable skills relevant to the fields of employment where psychology/counselling and neuroscience graduates are valued. (KU GA PPP KTS)
- PPO.3 Take personal responsibility for directing your own learning and future career making the best use of the opportunities, experiences and people that were available to you during your placement year. (KU GA PPP KTS)

Level 6 course learning outcomes: upon completion of Level 6 you will be able to:

- L6.1 Apply psychological and criminological theories and evidence to domains of professional practice. (KU)
- L6.10 Synthesise distinctive contributions of psychology to real-life issues, by making connections and evidenced-based recommendations within and beyond the discipline. (GA)
- L6.2 Formulate and investigate criminological and psychological questions across a range of specialist areas of study. (KU)
- L6.3 Consolidate and extend a body of knowledge in psychology or criminology through the planning and execution of independent primary research, under supervision. (PPP)
- L6.4 Generate and explore hypotheses and research questions, and to identify and mitigate ethical issues relating to an independent research project. (PPP)
- L6.5 Evaluate competing explanations within criminology and psychology and draw logical conclusions. (PPP)
- L6.6 Adapt your communication style in order to communicate ideas clearly and fluently to diverse audiences. (KTS)
- L6.7 Gather appropriate qualitative or quantitative information to address criminological and/or psychological questions in relation to crime, victimisation, responses to crime and deviance, and representations of these. (PPP)
- L6.8 Work independently, show signs of intellectual originality and become producers of criminological and psychological knowledge and to be equipped to become reflective, self-managed lifelong learners. (KTS)
- L6.9 Frame and develop lines of enquiry that demonstrate the complexity and interconnectedness of social phenomena. (PPP KTS)

How will you learn?

Learning methods

Teaching and learning in Psychology and Criminology at Westminster is designed to help you meet the learning outcomes of the course and to fulfil your potential. We encourage you to become active learners who take increasing responsibility for your own learning as you move through the levels with appropriate support. You will develop a broad knowledge of concepts, theories and contemporary issues in psychology and criminology and of the links between the two disciplines. Your first year of study (level 4) provides a broad foundation to psychology and criminology and supports your transition into higher education by facilitating the development of subject specific and key transferable skills that will be important during your degree and subsequent career. Your second year (level 5) will draw together strands of psychology and criminology to give you a deeper understanding of the complementary ways in which these disciplines interconnect. In your final year (level 6) you will focus on applying this knowledge to complex real-world issues through the development of your own research project under staff supervision. A range of psychology and criminology option modules available in the final year ensure that you can tailor your degree to specific interests related to your career aspirations.

Teaching methods

You will be taught in a wide variety of settings. Lectures are used to impart core knowledge in the majority of modules, which are designed to capture your interest and excite your curiosity. Seminars in smaller groups are used to consolidate your learning through discussion or participation in other activities. Practical classes and laboratory workshops help you to develop skills in data collection and analysis. Supervised group work in seminars provides opportunities to work together in developing key transferable skills to enhance understanding and employability. Technology is used to enhance learning and you will make extensive use of Blackboard, our virtual learning environment.

We make full use of our location in Central London and our various links with outside organisations to enhance your student experience and learning opportunities. A number of modules facilitate off-site learning, with visits to the theatre and museum, and field walks. Your experience will be further enriched by opportunities for research participation and work-based learning.

Assessment methods

The course offers students a variety of assessment methods which aim to nurture as well as assess your academic development. Assessment helps you to demonstrate what you have learned in particular modules and across the range of your degree. There are many different forms of assessment for our modules including traditional academic assessments as well as assignments designed to resemble real-world tasks that you might encounter in your professional life. Assessment methods include coursework essays, debates, criminal-justice policy analyses, individual and group presentations, statistical analyses and the final year research dissertation. The assessments all aim to enhance your learning, not merely to test it. They help you build up your knowledge and skills, linking issues and knowledge within and between modules, while also developing and reinforcing your independent study initiative.

Synoptic learning links work on more than one module, and so encourages you to demonstrate your deeper and more connected grasp of the subject as a whole.

We ensure that you are assessed fairly in the following ways. Clear assessment criteria are set out in module documents that are explicitly linked to what we set out to teach you - the module Learning Outcomes. This means that you will know in advance what is required to do well. The feedback you receive on coursework assignments relates back to these assessment criteria, so that you understand how the mark awarded was determined, and also relates forward so that you can use your skills and knowledge gained in future assessments.

Every module incorporates formative assessments that provide you with useful feedback on how you are doing, assisting you to prepare for the summative assessments that count toward your final degree classification. As such, formative assessments are an important and integrated aspect of the teaching and learning methods we employ. They help you to diagnose areas for improvement, and identify areas of strength to be nurtured and developed further.

All written coursework in this course is submitted online via our Blackboard system, marked online and detailed feedback is returned online. Each individual form of written assessment is marked using an agreed marking rubric, to help ensure clarity for you the student, in terms of what is expected of you, and consistency of marking standards for the teaching team.

To help you understand your grade the University have developed generic descriptors for each Level of study, these can be found in the module descriptors. Further specific assessment criteria for each assessment will be provided in module handbooks.

Graduate Attribute	Evident in Course Outcomes
Critical and creative thinker	IEO.1, L4.1, L4.2, L4.6, L5.1, L5.2, L5.3, L5.6, L5.7, L6.10, L6.3, L6.5, L6.7, L6.8, L6.9, PPO.2
Literate and effective communicator	IEO.3, L4.2, L4.3, L4.4, L4.7, L4.8, L5.4, L5.9, L6.3, L6.6, PPO.2, PPO.3
Entrepreneurial	L5.8, L6.2, L6.7, L6.8
Global in outlook and engaged in communities	IEO.2, IEO.3, L4.5, L4.9, L5.2, L5.6, L5.7, L6.9, PPO.1, PPO.2, PPO.3
Socially, ethically and environmentally aware	IEO.2, IEO.3, L4.9, L5.5, L5.6, L5.7, L6.1, L6.2, L6.4, PPO.2, PPO.3

Course Structure

This section shows the core and option modules available as part of the course and their credit value. Full-time Undergraduate students study 120 credits per year. Course structures can be subject to change each academic year following feedback from a variety of sources.

Modules are described as:

- **Core** modules are compulsory and must be undertaken by all students on the course.
- **Option** modules give you a choice of modules and are normally related to your subject area.
- **Electives**: are modules from across the either the whole University or your College. Such modules allow you to broaden your academic experience. For example, where electives are indicated you may choose to commence the study of a foreign language alongside your course modules (and take this through to the final year), thereby adding further value to your degree.
- Additional information may also be included above each level for example where you must choose one of two specific modules.

Modules

Level 4

Award of Certificate of Higher Education available

Module Code	Module Title	Status	PT Year (where applicable)	UK credit	ECTS
4CRIM003W	Controversies in Criminal Justice	Core		20	10
4PSYC008W	Introduction to Biological and Cognitive Psychology	Core		20	10
4PSYC009W	Introduction to Psychological and Criminological Research Methods	Core		20	10
4PSYC007W	Introduction to Social and Developmental Psychology	Core		20	10
4CRIM009W	Criminological Imagination	Core	1	20	10
4CRIM010W	Criminological Perspectives	Core	1	20	10

Level 5

Students are required to select ONE option from the four listed

Module Code	Module Title	Status	UK credit	ECTS
5PSYC005W	Cultivating employability skills for career success	Core	20	10

Module Code	Module Title	Status	UK credit	ECTS
5PSYC022W	Further Biopsychology and Cognition	Core	20	10
5PSYC019W	Further Social and Developmental Psychology	Core	20	10
5PSYC020W	Psychological and Criminological Research Methods	Core	20	10
5CRIM001W	Radical Criminology	Core	20	10
5CRIM004W	Gender, Crime and Justice	Option	20	10
5CRIM002W	Globalisation, Crime and Control	Option	20	10
5CRIM003W	Race, Power & Criminal Justice	Option	20	10
5CRIM005W	Youth, Crime and Justice	Option	20	10

Additional Year

Optional Sandwich Year Credit level 5 leading to BSc Psychology and Criminology with Professional Placement

5PSYC027W Psychology or Criminology Professional Placement Year

Optional Sandwich Year Credit level 5 leading to BSc Psychology and Criminology with International Experience

5PSYC024W Psychology or Criminology International Study Year

Module Code	Module Title	Status	UK credit	ECTS
5PSYC024W	Psychology or Criminology International Study Year	Option	120	60
5PSYC027W	Psychology or Criminology Professional Placement Year	Option	120	60

Level 6

Options: Students are required to select ONE psychology module and TWO criminology modules.

6CRIM003W Punishment and Modern Society (Criminology)
6CRIM004W Human Rights and Global Injustice (Criminology)
6CRIM006W Media and Crime (Criminology)
6CRIM007W Issues in State Crime (Criminology)
6CRIM009W Immigration, Crime and Control (Criminology)

6PSYC003W Occupational and Work Psychology (Psychology)
6PSYC005W Psychology of Counselling and Psychotherapy (Psychology)
6PSYC006W Health Psychology (Psychology)
6PSYC008W Clinical Psychology (Psychology)
6PSYC013W Psychology of Education (Psychology)
6PSYC021W Consciousness (Psychology)
6PSYC020W Data Science Applications in Psychology (Psychology)
6PSYC018W Political Psychology (Psychology)

Award of BSc Honours available

Module Code	Module Title	Status	UK credit	ECTS
6PSYC007W	Forensic Psychology	Core	20	10
6PSYC017W	Project in Forensic or Criminological Psychology	Core	40	20
6PSYC008W	Clinical Psychology	Option	20	10
6PSYC021W	Consciousness	Option	20	10
6PSYC020W	Data Science Applications in Psychology	Option	20	10
6PSYC006W	Health Psychology	Option	20	10

Module Code	Module Title	Status	UK credit	ECTS
6CRIM004W	Human Rights and Global Injustice	Option	20	10
6CRIM009W	Immigration, Borders and (In)Justice	Option	20	10
6CRIM007W	Issues in State Crime	Option	20	10
6CRIM006W	Media and Crime	Option	20	10
6PSYC003W	Occupational and Work Psychology	Option	20	10
6PSYC018W	Political Psychology	Option	20	10
6PSYC005W	Psychology of Counselling and Psychotherapy	Option	20	10
6PSYC013W	Psychology of Education	Option	20	10
6CRIM003W	Punishment and Modern Society	Option	20	10

Please note: Not all option modules will necessarily be offered in any one year. In addition, timetabling and limited spaces may mean you cannot register for your first choice of option modules.

Professional body accreditation or other external references

This programme is Accredited by the British Psychological Society and confers eligibility for the Graduate Basis for Chartered Membership (provided the minimum standard of a Lower Second Class Honours is achieved, and the empirical project has been passed). This is the first step towards becoming a Chartered Psychologist.

Accreditation awarded – September 2020.

Course management

The course runs in the School of Social Sciences which is a part of the College of Liberal Arts and Sciences. The degree has two designated Course Leaders whom you will meet during Orientation Week and who are available for consultation either by email, during weekly office hours throughout the year, or by appointment. During March of the second year, you will have the opportunity to choose your level 6 option modules for the following year after consultation with academic staff.

Individual modules each have a Module Leader who is responsible for the smooth running of that module. Module Leaders are available during term-time in their office hours or by appointment.

Academic regulations

The current Handbook of Academic Regulations is available at westminster.ac.uk/academic-regulations.

Course specific regulations apply to some courses.

Academic Support

Upon arrival, an induction programme will introduce you to the staff responsible for the course, the campus on which you will be studying, the Library and IT facilities, additional support available and to your Campus Registry. You will be provided with the Course Handbook, which provides detailed information about the course. Each course has a course leader or Director of Studies. All students enrolled on a full-time course and part time students registered for more than 60 credits a year have a personal tutor, who provides advice and guidance on academic matters. The University uses a Virtual Learning Environment called Blackboard where students access their course materials, and can communicate and collaborate with staff and other students. Further information on Blackboard can be found at <https://www.westminster.ac.uk/current-students/studies/your-student-journey/when-you-arrive/blackboard>

The Academic Learning Development Centre supports students in developing the skills required for higher education. As well as online resources in Blackboard, students have the opportunity to attend Study Skills workshops and one to one appointments. Further information on the Academic Learning Development Centre can be found at westminster.ac.uk/academic-learning-development.

Learning support includes four libraries, each holding a collection of resources related to the subjects taught at that site. Students can search the entire library collection online through the Library Search service to find and reserve printed books, and access electronic resources (databases, e-journals, e-books). Students can choose to study in the libraries,

which have areas for silent and group study, desktop computers, laptops for loan, photocopying and printing services. They can also choose from several computer rooms at each campus where desktop computers are available with the general and specialist software that supports the courses taught in their College. Students can also securely connect their own laptops and mobile devices to the University wireless network.

Support Services

The University of Westminster Student and Academic Services department provide advice and guidance on accommodation, financial and legal matters, personal counselling, health and disability issues, careers, specialist advice for international students and the chaplaincy providing multi-faith guidance. Further information on the advice available to students can be found at <https://www.westminster.ac.uk/student-advice>

The University of Westminster Students' Union also provides a range of facilities to support students during their time at the University. Further information on UWSU can be found at <https://www.westminster.ac.uk/students-union>

How do we ensure the quality of our courses and continuous improvement?

The course was initially approved by a University Validation Panel. University Panels normally include internal peers from the University, academic(s) from another university, a representative from industry and a Student Advisor.

The course is also monitored each year by the College to ensure it is running effectively and that issues which might affect the student experience have been appropriately addressed. Staff will consider evidence about the course, including the evidence of student surveys, student progression and achievement and reports from external examiners, in order to evaluate the effectiveness of the course and make changes where necessary.

A Course revalidation takes place periodically to ensure that the curriculum is up-to-date and that the skills gained on the course continue to be relevant to employers. Students meet with revalidation panels to provide feedback on their experiences. Student feedback from previous years is also part of the evidence used to assess how the course has been running.

How do we act on student feedback?

Student feedback is important to the University and student views are taken seriously. Student feedback is gathered in a variety of ways.

- Through student engagement activities at Course/Module level, students have the opportunity to express their voice in the running of their course. Course representatives are elected to expressly represent the views of their peers. The University and the Students' Union work together to provide a full induction to the role of the course representatives.
- There are also School Representatives appointed jointly by the University and the Students' Union who meet with senior School staff to discuss wider issues affecting student experience across the School. Student representatives are also represented on key College and University committees.;
- All students are invited to complete a questionnaire before the end of each module. The feedback from this will inform the module leader on the effectiveness of the module and highlight areas that could be enhanced.
- Final year Undergraduate students will be asked to complete the National Student Survey which helps to inform the national university league tables.

This programme specification provides a concise summary of the main features of the course and the learning outcomes that a student might reasonably be expected to achieve and demonstrate, if they take full advantage of the learning opportunities that are provided. This specification is supplemented by the Course Handbook, Module proforma and Module Handbooks provided to students. Copyright in this document belongs to the University of Westminster.
